Subject: ALTS Vacancy

Johnnie,

I interviewed six people for our current vacancy: 5 Summer Pathways Interns and one person requesting a transfer from Region 9. Before the interviews, I provided all the applicants with a short description of the work the section does and the position description. I followed up the interviews by contacting the interns' supervisors and mentors as well as consulting with others in our branch who had interviewed some of them in the last month. After all of this, my two top choices are [redacted] and [redacted]. Here is a short justification for my recommendation.

I will like to spend some time with you tomorrow discussing this and make a final decision on the selections. Please let me know when this be convenient for you.

Thanks,

Gracy
